About
Web developer, designer, and former teacher with a demonstrated history of versatility, curiosity, enthusiasm, & drive. I love collaborating, communicating, and writing code that is clear, efficient, and accessible.

Technology
◆ React, Redux, JavaScript, RESTful APIs, HTML, CSS, Sass, Bootstrap
◆ Node.js, Express, Python, MySQL, PostgreSQL, Sequelize, Amazon Web Services
◆ UX & UI design, wireframing, Adobe Creative Suite

Additional Skills
Customer service, communication, visual design and layout, web typography, writing, editing, teaching and instructional design, Spanish

Learning right now
Angular, PHP, Wordpress

Education
DigitalCrafts, 2018-2019
◆ Certificate, Full Stack Web Development

Rochester Institute of Technology, 2002-2007
◆ Master of Science for Teachers, Art Education
◆ Bachelor of Fine Arts, Illustration
◆ Associate of Applied Science, Graphic Design

RECENT PROJECTS:
Papaya github.com/katiejduane/Papaya
• State management and componentization with React & Redux
• Created a simple & elegant UI/UX for artists to manage and update projects as they move through the creative process
• Implemented Sequelize for database management

Narrative Code katiejduane.com/narrative-code
• Wrote three JavaScript programs that give the user different ways to "generate" a poem: one using an API, one using recursion, and the other based on user input
• Made with vanilla JavaScript, CSS, and HTML

emOceans github.com/katiejduane/emoceans | katiejduane.com/emoceans
• Web app built on Express and MySQL that allows users to track shifts in mood over time using color and language
• Wrote object-oriented JavaScript and implemented chroma.js library, creating a color palette to be manipulated by the user
• Coded data visualizations for different lengths of time

* Additional project demos & code are available at katiejduane.com

PROFESSIONAL EXPERIENCES:
DigitalCrafts, Developer-in-Residence | March 2019 - present
Assist students in learning front and backend development. Collaborate with the instructor to ensure students' needs are met. Lead an hour of instruction every Friday covering algorithms & white-boarding.

Bread & Butterfly, Server | August 2017 - November 2018
Designed and updated Specials Menu, learned menu items, attended to customer needs, handled monetary transactions.

Rochester City School District, Art Teacher | 2012 - 2017
• Assisted in the development of district-wide curriculum support materials and literature, aimed at improving teaching efficacy and streamlining classroom systems.
• Created projects that emphasized opportunities to improve motor skills, and create connections between the visual arts and math, science, language, history, as well as students' interests.
• Lessons included English language instruction, as many of my students were recently-arrived immigrants and refugees.
